London, UK

To the person lucky enough to hire Stylianos Tsatsaronis.

I happen to know Stylianos for quite some time. We met as professionals, we worked together as professionals and soon enough we ended up becoming friends.

Stylianos is such a talented designer that surpasses any expectations. He has the skills of a veteran and the creative insight to fulfil any high demanding project.

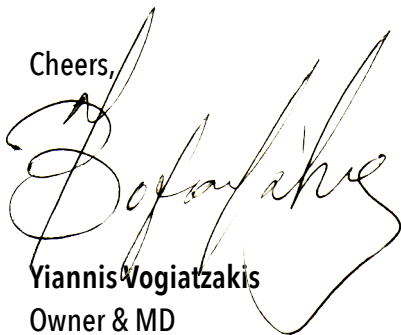

During our cooperation Stylianos was responsible for the design of innovative display solutions (off and on trade channel) for some of our major clients' brands, such as Johnnie Walker Red label, Black and Double Black. His ability to work fast, interpret creative directions and meet deadlines is very impressive.

Stylianos is very knowledgeable with various design software, learns new technology quickly and shows a keen understanding of a solid concept. He responds well to constructive criticism or feedback and is eager to be challenged at every turn.

His soft spoken manners is no indication of his passion for design or willingness to go the extra mile.

I highly recommend Stylianos Tsatsaronis for employment and i assure you i would snag him myself if he chose to stay in London.

Cheers,

Yiannis Vogiatzakis
