

To whom this may concern,

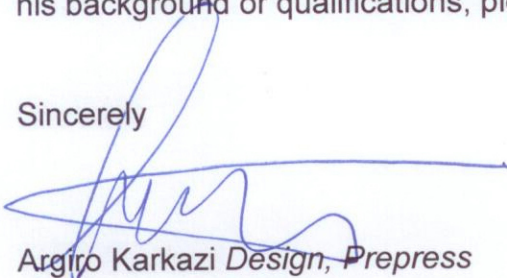

As Design, Prepress and Cost Accounting Manager of Koskinidis A.E.B.E. I had the pleasure of working with Stylianos for the past 8+ years.

Stylianos held the position of Creative Director and Senior Corrugated Structural Designer. During this time he re-engineered the department, engaged with customers, trained and mentored junior designers. He effectively created concept designs, esthetic 3D models, and prototypes. He collaborated with the graphic design department and production unit to provide immediate solutions if necessary.

What truly amazed me is his ability to pull ideas out of thin air. He would form associations between objects or subjects that at first seem to have nothing in common. In practice, this means that Stylianos can approach concept designing from a different direction and with an alternative perspective, helping him create truly original designs. He can take pride in knowing that he raised the bar of excellence.

Stylianos relentless drive, creativity, passion and leadership made him hands down the most proficient asset in the Design Department. He would be a tremendous asset for your company and has my highest recommendation. If you have any further questions with regard to his background or qualifications, please do not hesitate to call me.

Sincerely

*Argiro Karkazi Design, Prepress
& Cost Accounting Manager*
