

To whom this may concern:

I highly recommend Stelios Tsatsaronis as a candidate for employment. Stelios was employed by PT Tsiteros as the creative head/senior industrial designer from 2006-2008. Stelios was responsible for creating initial concepts and designs used to launch or promote pop products into the market. He also developed 3D computer renderings used during presentations. He was also responsible for creating innovative mechanical designs and prototypes as well as testing the prototypes before production. In addition he is extremely organized and reliable. Stelios can work independently and is able to follow through to ensure that the job gets done. He is flexible and willing to work on any project assigned to him. During the time that Stelios reported to me I was impressed by his overall job performance.

Stelios would be a tremendous asset for your company and has my highest recommendation. If you have any further questions with regard to his background or qualifications, please do not hesitate to contact me.

Sincerely,

Dimitris Liverios
CEO
