

To whom this may concern:

I have worked with Stelios for a short period of time, he was highly recommended over a year ago by an associate. Since then we have worked on several projects together. His creativity and enthusiasm always provided exceptional results. However, in working with him, I found that his true strengths are, his strong intellect and his ability to understand and effectively communicate complex issues. He continually impressed me with his ability to ask targeted questions in order to pinpoint the needs of the client. In addition, he is completely self-directed and excellent at planning. I could always rely on Stelios and his results are always outstanding.

I highly recommend Stelios, for he is an asset to any company that is interested in a very talented industrial designer. If you have any further questions, please do not hesitate to call me.
